DETAILED ACTION

Reasons for Allowance

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, the closest prior art of record, Olgaard (Fig. 5) does not disclose the following limitations: a VCO generates a clock signal corresponding to a fractional division control data signal, and an integer division logic circuit generates a feedback signal in response to an external integer division ratio data and a predetermined division ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Patent numbers (4,849,714; 5,821,816) are the PLL circuits with the frequency divider circuits.
